USER GUIDE

BLUETOOTH HEADPHONES

Model: GV-BT400

Congratulations on your purchase and thank you for your use of our Bluetooth headset. In order to start quickly, please read the user guide carefully.

Keys and Parts

The headset contains the following parts:

Headset x 1

Audio cable x 1

Charging cable x 1

Manual x 1

Before using the headset, you must charge the battery and pair the headset with a compatible device.

Charge the Battery

The headset contains a Micro USB cable that can be connected to your computer or other device made for USB charging. Plug the Micro USB end of the included USB cable into the USB micro port charger connector under the left ear-cap of the headphone. Plug the other end into a USB port on your computer or other devices made for USB charging. The indicator light will be red while charging. Once fully charged, the indicator light will turn off. Charge time is two hours and half on an empty battery. The fully charged battery has power for up to 10 hours talking and/or music time (and up to 200 hours standby time).

Note:

The headset is with built-in lithium ion battery. Please keep at least 4 hours full charge before first time of use (Suggestion: Don't use the car charger at first time).

Switch On

To switch on, press and hold the Power on/off about 2 seconds.

The blue indicator light is briefly displayed. When the headset is connected to a device and is ready for use, the blue indicator keeps lighting. When the headset enters the pairing model, the indicator light flashes quickly.

Switch Off

To switch off, press and hold the Power on/off for about 3 seconds. The red indicator light is briefly displayed. If the headset is not connected to a device within 3 minutes, it switches off automatically.

Pairing

1. Ensure that your phone or Bluetooth device is switched on.
2. To pair the headset if it has not been previously paired with a device, switch on the headset. The headset enters the pairing mode, and the blue indicator light starts to flash quickly. To pair the headset if it has been previously paired with another device, ensure that the headset is switched off.
3. Activate the Bluetooth feature on your phone or Bluetooth devices, and set it to search for Bluetooth devices.
4. Select "GV-BT400" from the list of found devices on your phone or Bluetooth devices.
5. When successfully connected, the blue light turns to continuously lighting.

Note:

The headset that has been previously paired with another device will automatically connect with the device if the device is power on and within connecting range, if not, the headset will enter standby mode with continuously blue light .

Adjust the Volume

To adjust the headset volume, press the volume up or down key during a call or while listening to music.

Warning

Excessive sound pressure from earphones and headphones can cause hearing loss.

Application

GV-BT400 can make and receive calls hands-free with your compatible mobile phone and listen to music from a compatible Bluetooth device, but they should be within 10 meters (33 feet) of each other.

The headset is compliant with the Bluetooth Specification 4.0 support the following profiles: Headset Profile (HSP) V1.6, Hands-Free Profile (HFP) V1.5, Advanced Audio Distribution Profile (A2DP) V1.0, and Audio Video Remote Control Profile (AVRCP) V 1.4. Input rating 5V DC, 0.5A.

Calls

To make a call, use your mobile phone in the normal way when the headset is connected to it. To answer or end a call, quickly press the Phone key.

Disconnect the Headset

To disconnect the headset from your device, switch off the headset, or disconnect it in Bluetooth menu of your device.

Reconnect the Headset

To connect the headset to the phone or Bluetooth devices that you have last used with it, switch on the headset, or make the connection in the Bluetooth menu of your device.

Listen to Music

To listen to music, connect the headset to phone or compatible Bluetooth devices that support A2DP Bluetooth profile. The available music functions depend on your Bluetooth devices. If you receive or make a call while listening to music, the music is paused until the call ends. To play a song, select in the music player and press the Play/Pause key on the headset. To pause or resume playing a song, press the Play/Pause key. To select the next song during playback, press the track forward key quickly. To select the previous song, press the track back key (once or twice) quickly.

Passive model

You can use GV-BT400 as a wired headphone to save batteries. Simply connect one end of the included cable to the bottom of the left earcup the other to your MP3 player. Inserting an audio cable disable the wireless functionality.

Caution

1. Please turn off the headset and put it into box to avoid damage, scratches or bracket deformation when long time no use. In order to prolong the battery service life, please charge every 6 months.
2. Please charge at first if the headset is left unused for long time.
3. The battery of headset is original and please don't change it by yourself.
4. Please keep the headset under dry place.
5. The operating temperature is 5°C to 35 ° C. Please don't put the headset into fire to avoid battery blast accident.
6. Please don't bent or twist the bracket to avoid deformation.

7. The ear cap should only be opened by a professional audio engineer.

8. Please note Audiologists suggest that to protect your hearing, you should not play music at high volume for long periods.

9. Do not use the headset in dangerous place or place where can not hear the outside sound.
